Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites (2019)

Project Title	Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites (2019)
Domain	Culture & Heritage Analytics / Tourism & Conservation Business Intelligence
Tool	Tableau Desktop / Tableau Public
Dataset	Kaggle UNESCO World Heritage Sites Dataset, 1978–2019 (~1,121 sites, 12 fields)
Prepared By	M. Deepika (Team Lead), M. Supraja, K. Srikala, I. Pushpa, U. Bhavana
Mentor	Not yet assigned
GitHub Repository	https://github.com/mankudeepika123-rgb/Heritage-Treasures-An-In-Depth-Analysis-of-UNESCO-World-Heritage-Sites-2019-

Date	22/08/2026

2.3 Data Flow Diagram

The following describes the end-to-end data flow for this project:

- Step 1 — Raw Source: Kaggle UNESCO World Heritage Sites dataset (~1,121 sites, 12 fields, 1978–2019)
- Step 2 — Data Preparation: Fields reviewed for nulls and consistency; Country and Region names standardised
- Step 3 — Calculated Fields: Danger Status flag and Years-Since-Inscription calculated field added to support trend analysis
- Step 4 — Tableau Data Connection: Site-level extract connected as the primary source; Country field assigned Geographic Role for map rendering
- Step 5 — Visualization Layer: Individual chart sheets built (world map, category chart, region danger ranking, inscription trend line)
- Step 6 — Dashboard Layer: 3 role-specific dashboards assembled from the chart sheets with interactive filters
- Step 7 — Story Layer: Tableau Story combining dashboards for a guided presentation
- Step 8 — Publishing: Workbook saved to Tableau Public; shareable URL generated for GitHub submission

2.4 User Stories

User Type	Epic	User Story	Acceptance Criteria	Priority	Sprint
Conservation Officer (Elena)	Data Visualization	As a conservation officer, I want to see sites in danger by region so I can prioritise funding	Region danger ranking chart shows correct counts; Region filter works correctly	High	Sprint 1
Conservation Officer (Elena)	Dashboard	As a conservation officer, I want a single dashboard combining the map and region ranking	Conservation Officer dashboard shows map + region ranking side by side	High	Sprint 2

User Type	Epic	User Story	Acceptance Criteria	Priority	Sprint
Tourism Planner (Marcus)	Data Visualization	As a tourism planner, I want to see category distribution by country so I can plan balanced itineraries	Category chart shows Cultural/Natural/Mixed counts; Country filter works correctly	High	Sprint 1
Tourism Planner (Marcus)	Dashboard	As a tourism planner, I want the map and category chart together to compare regions and categories	Tourism Planner dashboard shows map + category chart; filters apply to both	High	Sprint 2
Policy Researcher (Amara)	Data Visualization	As a policy researcher, I want to see inscription trends over time so I can study long-term patterns	Inscription trend chart shows a clear year-by-year line from 1978–2019	Medium	Sprint 2
Policy Researcher (Amara)	Dashboard	As a policy researcher, I want a combined view of inscription trend and danger listing over time	Policy Researcher dashboard shows trend chart + danger listing timeline	Medium	Sprint 2
All Users	Story	As a stakeholder, I want a guided narrative walkthrough of all dashboards to understand the full picture	Tableau Story has one point per persona, navigable with arrow buttons	Medium	Sprint 3
All Users	Web Integration	As a stakeholder, I want to access the dashboard from any browser without installing Tableau	Workbook published to Tableau Public; URL accessible without login	High	Sprint 3
